Wednesday May 29th
@ 1:30pm

Dunkirk, Dir: Nolan 2017
The story follows a young soldier making his way out of Dunkirk during WW2. It shows the evacuation from three points of view: land, sea and air. Director, Nolan, weaves the story across the three narratives, and an ever-changing timeline, to give the viewer some understanding of the desperation of the situation the British, French and Belgian armed forces found themselves in during the evacuation.
